

PCCCI
INSTRUCTIONS FOR USE OF
HOUSING ASSIGNMENT FORMS

Please use the form on the reverse side to group your campers into cabin groups of a maximum of 7-8, along with at least one Volunteer Counselor per cabin group. Both at Big Bear and at Rancho La Scherpa, we will be housing campers in a variety of types of housing. We have rooms that sleep 4-10, and also dorms that sleep 16-20. Regardless of whether or not your campers are housed in rooms or in dorms, our recommended camper to counselor ratio is 1 Volunteer Counselor for each 7 – 8 campers. While fire and health codes require us to follow strict guidelines as to the number of people housed in each facility, we will do everything possible to accommodate your housing groupings.

As you make cabin assignments please keep in mind the compatibility of the campers.

Please Note:

- *For any camp that is 100% full or close to 100% full, each dorm/room will have to have the maximum number of campers assigned to it. During full camps, if your group does not break up evenly into the dorm/room numbers, we will be combining you with another church group and/or with other individual campers. Please give us any information you think we need to know in the event we need to rearrange any of your housing assignments. (i.e. "Joe and Brian have to stay together.").*

Please give us a call when you are filling out your Housing Assignment forms, and we will be happy to help problem solve any unusual situation you may be facing.
